

10 WAYS TO GET YOUR CHILD READING

- Sing songs and recite nursery rhymes to your baby.
- Read, tell, make up, or act out stories with your child every day.
- Keep books wherever your child will be.
- Do craft projects around favourite stories or characters.
- Let your child “help” you with daily reading tasks such as recipes or the grocery list.
- Take books to appointments and on long errands.
- Limit television watching, but watch with your child when you can.
- Talk about his or her favourite books and shows.
- Limit computer time, but find web sites that encourage reading and learning and do activities with your child.
- Set an example – READ – books, newspapers, signs, everywhere, in print and online.

Family Literacy

Reading, writing, watching and talking that families do together

Lire/Imagine/Read is a literacy-promotion project at the Montreal Children's Hospital linking health and reading.
